11 TARGETED SOLUTIONS TO PAIN POINTS	

1) INTRODUCTION

Welcome to SgHawkers: The Future of Hawker Culture

- A smart, sustainable ordering and management platform for Singapore's iconic hawker stalls.
- Dual-platform model: Diners (web/app) + Hawkers (dashboard) for digital orders, inventory, and sustainability.

2) PROBLEM / OPPORTUNITY

Problem Statement

- Hawker Centers offer:
 - Long queues
 - Manual processes
 - No sight on stock & waste
- Results In:
 - Lower profits
 - Negligence of customer needs
 - Lack of accessibility to the stalls

3) VALUE PROPOSITIONS

1) For Diners:

- ✓ ***Real-time Order Visibility*** eliminates uncertainty and enhances customer confidence.
- ✓ ***Accurate Delivery and Pickup Timing*** improves convenience and satisfaction.
- ✓ ***Integrated Cashless Payments*** offer a seamless dining experience, enhanced by ***loyalty reward programs*** and ***redeemable benefits*** that keep diners engaged and coming back.

2) For Hawkers:

- ✓ **Centralized Smart Dashboard** streamlines order, inventory, and waste management.
- ✓ **AI-powered Insights** help minimize overproduction and reduce food waste.
- ✓ **Actionable Sales Analytics** uncover customer trends and boost profitability.

3) For Singapore:

- ✓ ***Reduces Nationwide Food Waste*** through smarter supply and demand alignment.
- ✓ ***Safeguards Hawker Heritage*** by equipping traditional food culture with future-ready technology.

4) TARGET MARKET / AUDIENCE

Three Core Market Segments

- Government agencies (e.g., NEA)
- Local food suppliers
- Food delivery platforms

5) OUR STRATEGY

Two-Pronged Market Strategy

1) Go-to-Market Approach

- **Launch in high-traffic hawker centres** (e.g., AMK, Maxwell, Tiong Bahru) to build traction and brand presence.
- **Utilize social media micro-influencers** to boost visibility among tech-savvy diners.
- **Offer onboarding incentives and digital training** to encourage hawker participation.

2) Strategic Partnerships

- **Collaborate with polytechnics** for affordable, innovative **tech development**.
- **Leverage government grants and NEA support** to reduce costs and align with **national sustainability goals**.

STRATEGY

**Go-to-Market
Approach**

**Strategic
Partnerships**

SgHawkers

6) BUDGET / FUNDING

Projected Budget & Funding: Overview for SgHawkers

Category	Estimated Cost (SGD)	Purpose / Value
Platform & App Development	\$60,000	Core system for order tracking, payments, and dashboard functionality
Marketing & User Acquisition	\$20,000	Targeted campaigns to onboard diners and promote loyalty programs
Vendor Onboarding & Support	\$25,000	Training, tech support, and incentives for early hawker adoption
R&D for Sustainability Tools	\$15,000	AI waste reduction, inventory management, and future green features
<u>Total Initial Investment Required</u>	\$120,000	-
Funding Sources	Angel Investors, SG Digital, NEA	Leveraging both private capital and public innovation grants

8) SGHawkers: Pilot & Rollout Plans

1. Pilot Plan (Phase 1: Controlled Implementation)

Objective: Validate scalability, performance, and stakeholder satisfaction in a low-risk, real-world setting.

Steps	Key Phases	Key Actions
Step 1	Identify Pilot Hawker Sites	- Select 1 hawker centre per zone (e.g. North, Central, East) • <i>Ensure diversity in demographics and stall types</i>
Step 2	Deploy Key Digital Solutions	- Launch SGHawkers platform with real-time ordering, inventory, and waste tracking • <i>Train hawkers and onboard diners with loyalty rewards</i>
Step 3	Performance Tracking (6–12 Months)	- Monitor order volume, transaction speed, waste levels, and engagement • <i>Collect feedback from hawkers and diners for iteration</i>

2. Full Rollout Plan (Phase 2: Scalable Expansion)

Vision: Build a digitally connected hawker ecosystem that elevates heritage, boosts sustainability, and scales beyond Singapore.

Steps	Key Phases	Key Actions
Step 1	Gradual Expansion (2026–2027)	- Scale to all major hawker centres islandwide • <i>Introduce digital queue boards, AI inventory forecasting, and cross-centre reviews</i>
Step 2	Cross-Centre Integration (2028 onwards)	- Link hawker centres into a centralized ecosystem • <i>Enable region-wide promotions, data sharing, and sustainability benchmarking</i>
Step 3	Community & Stakeholder Engagement	- Run food sustainability campaigns, skill-building workshops, and showcase local innovation • <i>Reward eco-conscious behavior via Green Living rewards in-app</i>
Step 4	Ongoing Monitoring & Annual Reporting	- Publish yearly SGHawkers impact reports aligned with national goals (e.g. NEA, SG Green Plan) • <i>Continuously improve based on ESG and user data</i>

Timeline Breakdown

MVP & Funding Secured
Finalize prototype, raise funds, select 2–3 pilot sites.

Pilot Review
Collect feedback, refine UX, improve waste tools.

Islandwide Expansion
Cover all centres, add premium features & partners.

Regional Growth
Explore expansion, report ESG impact, integrate with GovTech.

Q2 2025

Q3-Q4 2025

Q1 2026

Q2– Q4 2026

2027

2028 Onward

Pilot Launch
Deploy platform, onboard hawkers, run engagement campaigns.

Phase 1 Rollout
Expand to 10–15 centres, launch loyalty & analytics.

9) SGHawkers: Payback & Profitability Timeline

SGHawkers Payback & Profitability Timeline in SGD

Year	Cumulative Cashflow	Key Milestones
Year 1	<i>\$-120,000</i>	Initial funding deployed: MVP platform built, pilot launched at 3 hawker centres, early user feedback loop.
Year 2	<i>\$-70,000 to -60,000</i>	Diner base grows via micro-influencer campaigns. Hawker sign-ups accelerate through onboarding incentives.
Year 3	<i>\$-20,000 to Break-even</i>	Monetization begins: platform fees, premium vendor features, and ESG grant support. Data-driven enhancements roll out.
Year 4	<i>\$+40,000 to +60,000</i>	Expanded to 15+ hawker centres. Revenue from vendor subscriptions and cross-platform partnerships strengthens.
Year 5	<i>\$100,000+</i>	Strong profitability from scaled adoption, loyalty rewards ecosystem, and regional collaboration opportunities.

**10) Real-World Pain Points
from Diners & Hawkers
Found via Interview**

Their Pain Points

**11) SGHawkers:
Targeted Solutions to
Real Pain Points**

How SGHawkers Transforms the Diner Experience

<u>Diners' Pain Points</u>	<u>SGHawkers Solutions</u>
1. Convenience & Speed	● Live order tracking ● Pre-order & pickup
2. Transparency & Choice	● Unified digital directory ● Smart search & ratings
3. Payment Friction	● Integrated e-payments ● Loyalty & rewards program

“Empowering Hawkers with Smart, Sustainable Solutions”

<u>Hawkers' Pain Points</u>	<u>SgHawkers Solutions</u>
1. Tech Adoption Barrier	● Simple onboarding dashboard ● Incentives & support
2. Sales Volatility & Waste	● AI-driven inventory & sales forecasts ● Daily insights
3. Marketing & Visibility	● Digital stall profile pages ● Push promotions

12) COMPETITIVE ANALYSIS

OUR COMPETITIVE POSITION

How we are currently standing in the market

Platform	Core Focus	Hawker Support	Sustainability	Innovation	Unique Value Proposition
GrabFood	Wide range of delivery from F&B to marts	Has Hawker Food listing	Go Green charge of 10 cent per order	AI Chatbot for Support	Mass convenience and wide restaurant coverage
WhyQ	Hawker Pickup	Has Hawker Food Listing	Green Packaging Encouragement	None	Affordable delivery from hawker stalls, intergratable with foodpanda etc
<i>SGHawkers</i>	<i>Hawker Centric System</i>	<i>Active support, Training + tools</i>	<i>Built-in AI + waste tools</i>	<i>AI Chatbot, AI tools to reduce waste</i>	<i>Real-time ops, digital inventory, sustainability insights</i>

13) SGHAWKERS' SIGNIFICANT PROPERTIES

7 Properties but One Word

"Revolutionizing"

**Revolutionizing
Hawker Centers
for a Sustainable
Future**

Significant Properties

Seamless

- A hassle free experience for all, customers and vendors alike

Scalable

- We are able to scale accordingly to not only the amount of vendors but customers too, keep costs to a minimum

Smart

- We use AI for different tools such as tracking, analytics, customer support and sustainability

Innovative

- We are always adapting with new technology to ensure user friendliness

Inclusive

- Made to be simple for seniors to use whilst attractive to young adults

Interactive

- Loyalty program to encourage customers to return and constant engagement with both users and vendors

Impactful

- Here to combat food wastage, and to work towards a greener earth

Current VS Future

BEFORE SGHawkers

Long Queues & Wait Times

Customers wait in line with no order status visibility

Manual Order Taking

Hawkers take orders by voice or pen, prone to errors

Cash-Only or Inflexible Payment

No digital payment or limited options

No Visibility on Inventory/Waste

Over-preparation, excess food waste, or stock-outs

No Pre-Order or Pickup Option

Entire transaction is onsite, causing crowd congestion

AFTER SGHawkers

Live Order Tracking

Customers track queue & wait time in real-time via app

Digital Pre-Order & Pickup

Diners skip queues with mobile pre-orders

Integrated e-Payment System

QR, PayNow, e-wallets—no more cash-only stalls

Smart Inventory & Waste Monitoring

AI detects trends and alerts hawkers to reduce waste

Meeting Environmental Goals

Built-in sustainability tools and insights for hawkers

14) RETURN ON INVESTMENT AS BENEFITS

Return on Investment:
Triple Bottom Line Impact

15) CONCLUSION

CONCLUSION

SGHawkers seeks to revitalise tradition through innovation. Mixing **heritage**, **tech**, and **sustainability** to future-proof Singapore's food culture.

*With strong demand, a ready team, and a scalable model — all we need now is you.
Let's bring SGHawkers to life.*

We're ready. Are you? Let's launch SGHawkers.

16) Individual Member Profiles

Zwe Htet Kyaw – *Project Lead / System Integrator* 🌟

Background:

Zwe is an accomplished full-stack developer with strong experience in leading software projects across web platforms. He has a proven track record of successfully managing agile development teams in both academic and competitive environments. Known for his ability to bridge the gap between technical execution and user needs, Zwe excels at aligning product vision with system architecture. He brings deep experience in backend integration, cloud deployment, and cross-functional coordination.

Why He's Key:

Zwe plays a crucial role in ensuring that all parts of SGHawkers — from frontend to backend to sustainability analytics — work together cohesively. His leadership guarantees that the team operates efficiently, meets milestones, and delivers a product that is both scalable and technically sound.

Tharun Ranjan – *Platform Core / Order System* ✖

Background:

Tharun is a backend specialist with a strong foundation in Node.js, database optimization, and scalable architecture. He has built inventory and transaction systems for academic projects and holds certifications in MySQL and Express.js. His problem-solving skills and attention to backend security and efficiency make him ideal for handling SGHawkers' complex order management and real-time data syncing.

Why He's Key:

Tharun ensures the platform's reliability and performance. His backend work is what powers the real-time order tracking and ensures stall owners can manage their business smoothly.

Tan Pek Yu – *Diner & Hawker UI / Real-Time Views* 🎨

Background:

Pek Yu is a talented frontend developer and UI/UX designer with extensive experience using Figma and React.js. He previously worked on an award-winning school project involving smart interfaces for elderly users. His design approach focuses on accessibility and clarity, backed by strong coding skills that bring mockups to life in production-ready interfaces.

Why He's Key:

Pek Yu ensures that both hawkers and diners have a seamless and enjoyable experience. His attention to user experience directly impacts user retention and adoption.

Ahmad Arfan – *Marketing / ROI / Business Pitch* 📢

Background:

Arfan is the team's strategic communicator and business brain. With a background in business studies and hands-on experience in student startup showcases, he's adept at positioning products for real-world success. Arfan specializes in crafting go-to-market strategies and investor pitches that highlight social impact, ROI, and innovation.

Why He's Key:

Arfan translates SGHawkers' features into compelling stories that resonate with stakeholders. His role is critical in attracting funding, hawker onboarding, and public engagement.
